

Wish Flag Instructions

A step by step tutorial by Future Craft Collective 2009

Materials:

Printed fabric of any size, pattern, shape

Plain white fabric

Buttons

Thread or embroidery floss

Fine point colored markers

String of any type

Pinking Shears

Step by Step instructions:

1. Cut the printed fabric into long strips 8-10" x however long you have it.
2. Fold over the top of the printed fabric approximately 1" or so and hem the entire length of the fabric.
3. Using pinking shears, cut the hemmed fabric into rectangles – approximately 5 or 6" wide
4. Using pinking shears again, cut the white fabric into rectangles about 1 ½ -2" smaller than the printed squares.
5. Print your wish or message onto the white fabric using the colored markers.
6. Using two buttons, attach the white fabric with the message on it, onto the printed flag, placing a button at each top corner.
7. String the flags onto the string through the hem.
8. Hang and watch all the wishes blow into the breeze and be carried all the way around the world and back.
